TOTAL GALLONS

### 2 | SELECT DOSAGE

RUSH is available in two sizes

- 5 lb. shaker
- 25 lb. pail

Follow label directions

#### Floating organic matter

Apply 5 lbs. evenly over 400 sq. ft.

#### Water treatment

Ponds: 5 lbs. treats 30,000 gallons  
Water features: 1 cup treats 4,500 gallons

#### Health maintenance

Ponds: 5 lbs. treats 250,000 gallons  
Water features: 1/4 cup treats 2,500 gallons

RUSH can be applied every 7-10 days

### 3 | TREAT

Repeat every 7-10 days, as needed

Repeat every 2-3 days when treating floating organic matter

Spread directly on the surface

Reduce dosage by 50% and treat every 2-3 days in ponds with high fish population

Evenly distribute

Do NOT overtre

## 3-STEPS TO A CLEAN, CLEAR AND HEALTHY POND. *Naturally*

### STEP **1** DISPENSERS

Dispensers provide a 30-day time release of beneficial bacteria and enzymes that consume excess nutrients in the water to keep it clean and clear of green organic growth and to improve water quality and clarity. Dispensers are all natural, veterinarian approved, and safe for animals and people.

#### **AquaSphere®PRO**

- All natural and biodegradable
- Reduces the sludge layer on the pond bottom
- Reduces odor

#### **Healthy Ponds® All Purpose Pond and Water Cleaner**

- Reloadable size for smaller water features
- Refills sold separately

### STEP **2** SUPPLEMENTS

Supplements increase the beneficial bacteria count in the pond, combating excess nutrients and improving water clarity. Our supplements are all natural, safe, biodegradable, and easy to use.

#### **Natural BLAST®**

- Advances decomposition
- Treats the entire water column
- One .25lb water-soluble bag treats up to 125,000 gallons

#### **VISTA®**

- Removes excess nutrients
- Primarily treats the top third of water column
- One .25lb water-soluble bag treats up to 250,000 gallons

#### **RUSH®**

- Accelerates decomposition of floating organic matter
- Ideal for heavy matting and green slime on rocks

### STEP **3** COLORANTS

Colorants reduce the ultraviolet rays that penetrate clear water, keeping the water temperature cooler and discouraging the growth of weeds and green organic matter.

- Use once water shows improvement from dispensers and supplements
- Keeps the pond cleaner
- Still allows for enjoyment of clean water

## HOW TO USE

Months 1 and 2 use **STEP 1** and **STEP 2**

Months 3 and ongoing use **STEP 1** and **STEP 3**

Keep the supplements on hand in case of a large rainfall that washes excess nutrients into the pond or when a temperature spike is forecasted.
